

Image A

Image B

Flux A

Flux B

Avg Flux

```
graph TD; A[Image A] --> FA[Flux A]; B[Image B] --> FB[Flux B]; FA --> AF[Avg Flux]; FB --> AF;
```

The diagram is a flowchart with five rectangular boxes. At the top, 'Image A' and 'Image B' are side-by-side. Arrows point from each to 'Flux A' and 'Flux B' respectively. Arrows from both 'Flux A' and 'Flux B' point to a final box at the bottom labeled 'Avg Flux'.
